1,99,99,900 Equity Shares of DPGL constituting 99.99% of the total Issued, Subscribed and Paid up Share Capital of DPGL are held by DPL. Accordingly, DPGL is presently a subsidiary of DPL.

**3. Objects and Reasons:**

- i. DPL is a well-established concern carrying on the business of manufacturing polyethylene terephthalate ("PET Resin") at its plant in Haldia in the State of West Bengal and selling the same in the domestic and international market. In addition DPL also carries on treasury operations in shares and securities of other bodies corporate and has interest in Pet Resin business in Egypt through its subsidiary, namely Egyptian Indian Polyester Company S.A.E., and business of developing and providing infrastructure facilities in IT/ITES Special Economic Zone in Bantala in the State of West Bengal through another subsidiary, namely Dhunseri Infrastructure Limited.
- ii. The Pet Resin business of DPL in India presently has a capacity of 4,80,000 metric tonnes (MT). Pet Resin is used extensively in packaging of fast moving consumer goods. The average consumption per head per annum of PET Resin is only 0.6 kilogramme in India as compared to 2.6 kilogramme in China and 10.9 kilogramme in USA. Although the said capacity of the Pet Resin business of DPL constitutes about 25% of the total installed capacity for such product in India, the said business is still relatively small as compared to the total present and expected size of such business in India as also size of business considered adequate for being competitive globally and in the long run. Such business has good potential for growth and development.
- iii. The considerations and factors applicable to the Remaining Business of DPL, are however different and divergent from the Pet Resin business constituted in the Transferred Business of DPL. In order to realise the potential and opportunity existing in the said business collaboration with a well-established world leader in such business having a global footprint was considered desirable. Indorama Ventures Public Company Limited ("IVL"), one of the world's leading petrochemical producers, has agreed to collaborate with DPL and jointly develop the said Pet Resin business of DPL and take a 50% equity stake in such business for a total consideration of Rs.418.76 crores through investment by IVL's wholly owned subsidiary, namely Indorama Ventures Global Services Limited or any other affiliate of IVL as determined by IVL. Indorama Ventures Global Services Limited or such other affiliate of Indorama shall hereinafter be referred to as "IVGS". IVL and its subsidiaries/ joint ventures are the largest producers of PET Resin in the world having 59 production facilities in 20 countries with a combined manufacturing capacity of 3.8 million tonnes of PET Resin. Further, DPL has agreed to acquire from IVGS a 50% equity stake in Micro Polypet Private Limited, another company manufacturing PET Resin in India with a capacity of 2,16,000 tonnes of PET Resin at its plant in Panipat District in the State of Haryana, for a total consideration of Rs.110.65 crores subject to adjustments. Consequent to such acquisition IVGS and DPL will each have an equal 50% equity stake in the said Micro Polypet Private Limited.
- iv. In the circumstances it is considered desirable and expedient to reorganise and reconstruct DPL by transferring its Transferred Business, as described in this Scheme of Arrangement, to DPGL in the manner and on the terms and conditions stated herein.
- v. DPGL was incorporated recently with the object, inter alia, of carrying on the business of manufacture of PET Resin. Consequent to the reconstruction, the Transferred Business and

the Remaining Business of DPL will be constituted in and owned by two separate entities, DPGL and DPL respectively, with each entity being capable of independent evaluation and having their own management and administrative set up. The same will result in the Transferred Business and Remaining Business being conducted and carried on by DPGL and DPL respectively more conveniently and advantageously with greater focus, attention and specialisation and facilitate the considerations and factors peculiar to the said businesses to be addressed more effectively by the said Companies.

- vi. The aforesaid reconstruction is necessary and will enable induction of a suitable strategic and financial partner in the Transferred Business, in DPGL as aforesaid. Subject to sanction of the Scheme by the Hon'ble High Court at Calcutta and completion of formalities, IVGS has agreed to take a 50% Equity stake in the said business in DPGL. IVGS has agreed to contribute a sum of Rs. 418.76 crores for acquiring such 50% equity stake as stated aforesaid.
- vii. The joint venture in DPGL will benefit from the local skills, knowledge, established base and expertise of DPL in the Transferred Business and strategic location of the Pet Resin Plant near Haldia port, being the largest port in North Eastern India, combined with the global presence, expertise, experience, technological leadership, global market reach and high utilisation rates of IVL. Such joint venture will strengthen and fortify the position of DPGL to grow the Transferred Business and become a larger and more efficient producer of PET Resin, with substantial savings in cost of procurement of raw materials, lower cost of production and better capacity to market and sell its products both in the domestic and international market. The products of DPGL will be marketed and sold with trademarks owned by DPL ('Aspet') and IVL ('Ramapet'). The said business in DPGL will thus also benefit immensely from such branding of its products.
- viii. In terms of this Scheme DPGL will issue and allot to DPL 2,84,75,000 Optionally Convertible Debentures of Rs.100/- each in DPGL credited as fully paid up and aggregating to Rs.284,75,00,000/- in exchange of the Transferred Business. Further, in terms of the said agreement with IVGS the said 50% Equity stake in DPGL will be acquired by IVGS subscribing to 2,00,00,000 Equity Shares of Rs.10/- each in DPGL at a premium of Rs. 199.38 per share for a total price of Rs.418.76 crores. Part of the proceeds of the said subscription by IVGS, i.e a sum of Rs. 284,75,00,000/- will be utilised by DPGL to redeem the said Debentures in terms of this Scheme.
- ix. The aforesaid arrangement will result in substantial cash inflows in the Transferred Business and Remaining Business for achieving and generating growth and development thereof and will also unlock the capital value of DPL.
- x. The arrangement is necessary for ensuring long term profitability and independent and optimum growth and development of the said businesses and undertakings on the basis of their own strengths and prospects and will facilitate realisation of their potential to a fuller extent.

- xi. The arrangement will enable DPGL to engage in business with an established undertaking and is proposed to the advantage of both the companies, their shareholders, employees and all concerned.
